CONTRIBUCIÓN DE LOS HISTORIADORES DE LOS ESTADOS UNIDOS A LA HISTORIA DE ESPAÑA Y DE HISPANO-AMERICA

EXPLICACIÓN PRELIMINAR [1]

Su Excelencia el Embajador J. Hunteley Hayes pidió desde Madrid que se preparase una lista de publicaciones hechas durante los últimos veinte años por los historiadores de los Estados Unidos referentes a la Historia de España y de Hispano-América. En principio esta lista había de ser selectiva y no completa.

La lista que se ofrece aquí es una respuesta apresurada a los deseos del señor Embajador. Se espera que en el futuro se haga una bibliografía más completa, preferiblemente con la intervención de un grupo de peritos. La compilación actual está basada fundamentalmente en las bibliografías de Mary Wilhelmine Williams en su *People and Politics of Latin-America* (Boston, Ginn and Co., 1938) y de A. Curtis Wilgus en su *Development of Hispanic-America* (New York, Farrar and Rinehart, 1941). Por añadidura han sido hojeadas las páginas de la *American Historical*

[1] Esta lista de publicaciones históricas ha sido comunicada a la Academia de orden del excelentísimo señor Embajador de los Estados Unidos de América, a quien agradecemos muy sinceramente su amable atención y el servicio prestado con ello a la cultura histórica española.

Review de 1923 en adelante, y para títulos recientes las de la *Hispanic American Historical Review.*

El interés por la Historia Española e Hispano-Americana de parte de los eruditos de los Estados Unidos ha sido notable. Es verdad que el campo de interés especial ha sido la fase americana de la historia española. El de la puramente Europea ha sido menor. En cuanto a la historia hispano-americana, en cambio, se ha dedicado muchísima atención a sus problemas, y durante los últimos años, en ritmo creciente. Se nota de manera especial la investigación de la historia de las regiones de los Estados Unidos que estuvieron bajo la bandera española, y la de los países de habla española que se encuentran ahora cerca de nuestros límites geográficos.

En esta bibliografía tentativa no pocos títulos representan casos dudosos, es decir, la historia pasa a ser geografía, política, arqueología, antropología, literatura, periodismo, etc. Por lo general no se han incluído aquí libros fuera de los predominantemente históricos. No es posible, sin embargo, un criterio rigurosamente exacto. Se han admitido, a veces, títulos de libros no rígidamente históricos, porque parecen ofrecer un interés especial. En cambio, se han excluído, por triste necesidad, algunos libros verdaderamente notables que no pueden considerarse de ninguna manera históricos.

La lista está compuesta casi exclusivamente de libros, con la omisión de casi todos los artículos de revistas. La clasificación sigue aproximadamente la de Williams y Wilgus. Es posible que se hayan insinuado algunos errores en nombres y fechas, porque faltó materialmente el tiempo para repasar repetidas veces las materias. Es posible también que unos cuantos títulos se deban a autores británicos, aúnque se ha tratado de omitirlos, excepto en casos, como el del señor Box, donde el autor es de la Gran Bretaña, pero la inspiración, la composición y la publicación pertenecen a los Estados Unidos.

Esta lista se ofrece solamente con la declaración de que es francamente tentativa e imperfecta; debería re-

emplazarla después una bibliografía preparada con más tiempo y más cuidado. No será inoportuno repetir que estos títulos no son más que una fracción de los publicados, aunque es de esperar que incluyan en general los más significativos en el campo predominantemente histórico.
